

WAY FINDING -

DETERMINED TO IMPROVE YOUR ENVIRONMENT

Glow
In
The Dark

To better service the healthcare environment, Griform Innovations® offers Colorfil and engraving capabilities that are widely used in the industry. Griform Innovations® Colorfil is cared for the same way for DuPont™ Corian® is maintained. A wide range of graphic choices are available as well as color options are created to meet your custom signage needs. We are known for our ability to work with you to create special items for your specific projects. We have developed an inlay engraving program that is able to be installed into most solid surfaces. Our easy to install inlay program is great for creating beautiful design elements, including permanent and repairable photos.

CHALLENGES

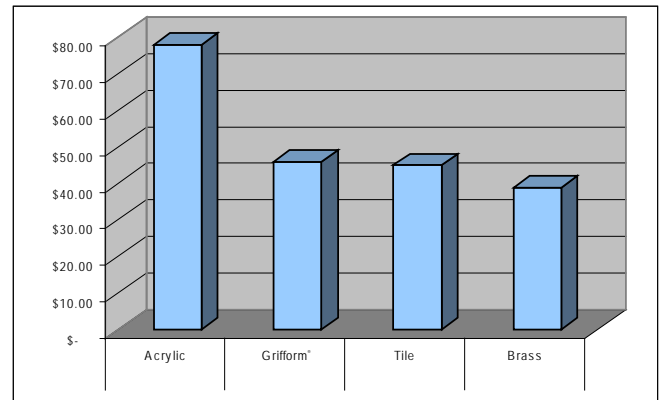

- Finding unique signage that meets the 2006 AIA Surface Standards.
- Durable, easily maintained, and aesthetically adapted to individual requirements.
- Indoor/outdoor applications.
- Lighted and glow in the dark applications.

- Unlimited Colorfil colors
- Available in over 130 DuPont™ Corian® colors

Samples of some design options available.

Griform Innovations®

Way Finding -

Determined to improve your environment.

Griform Innovations® graphic designs are produced by top quality software in conjunction with our CNC and laser engraving equipment. Our boundaries in graphic design are only limited by the imagination. Our laser work can be applied to practically any surface. Color and metal fills make our images and signage second-to-none.

Inlay Color and Metal Fill Options:

All color fills come in custom and pantone colors with the additional options of adding pearlescence, metallic flakes, and/or ice pearl flecks to create shimmer and sparkle in the design. Some of the below options can be combined.

1. Solid - Simple design filled with one tone and or color
2. Monotone - Grayscale tone: one color, many gradations in tone
3. Color Blends - Unique and different mixed colors in the image
4. Matrix Fills - Sand/Sierra Particulate
5. Glow-In-The-Dark - Solid color and matrix fills in limited colors
6. Multi-Color - 2,3,4, or more color layers
7. Metal Fills - 3D and flat fills in polished or brushed finish

- Aluminum
- Bronze
- Copper
- Nickel/Silver
- Stainless
- Brass

Costing:

Costing is based on your choice of both an engraving type and a color or metal inlay fill. You may also decide to leave the engraved artwork unfilled. Listings above are from the least expensive to the most expensive.
