Sales Force,

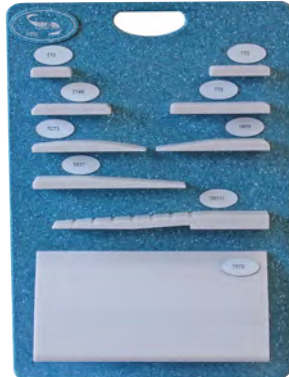

*This is the Griffform® Sample Sales Kit produced for both showroom and off-site display. These units have been proven to demonstrate the applications of Corian® by Griffform® most often asked for and least understood. This kit has been used by the DuPont™ Team for some time and has proven extremely effective for sales demonstrations and for special application calls using the backboard displays. The special hand truck is combined with the privacy partitions to enable easier delivery as the backboards file into the partition display and locks onto the hand truck to aid in navigation. The kit also comes with folding easels to display the backboards effectively on the floor or table top. Griffform® has designed this sales kit like any other Griffform® Product to be user friendly and durable.*

Thank you for selecting Griffform®.
